## IMPORTANT! Immediate Action Required - Takata Airbag Inflator Collection Update USA ONLY

Effective immediately, dealers are asked to use the existing Takata Inflator Return Process to return all Takata airbag inflators that have been removed under safety recall – regardless of how many you are currently holding.

**Do not delay in returning removed inflators. After February 21, 2018 Takata will no longer support the existing return process, and we must ensure as many inflators as possible are picked up/returned to Takata before that date.**

Thank you for your continued support.
