UPDATED Dealer Daily - DO NOT USE BRAKE LINES WITH WHITE MARK

Warranty Enhancement Programs
ZH6 - Certain 2005 – 2010 Model Year Tacoma Vehicles
Extension of Warranty Coverage for Frame Corrosion

2005-2008 Tacoma Frame Repair – Brake Line Update

A Brake Line used in certain 2005-2008 model year Tacoma frame replacement repairs has changed.

Part Number: 47323-04160 (TUBE, RR BRAKE, No. 3)

In a previous Dealer Daily (published Feb. 26, 2018), we notified that the new brake lines for this repair will have a white mark as indicated in the photos below. **We received notification that these brake lines with a white dot should not be used.**

We request that dealers return current in-stock brake lines at your dealership to the facing PDC (Part Distribution Center). We are quickly working on stocking inventory of this new part, and expect relief within a few weeks.

Thank you for your cooperation.
