

Subject: CHECK 360 DEGREE VIEW MONITOR SYSTEM OPERATION AT PDI	Service Alert No.: SA-018/18
	Last Issued: 03/28/2018

APPLICABLE MODEL(S)/VINS

2018 Mazda6 Signature

DESCRIPTION

The 360 degree View Monitor System is new for i-ACTIVSENSE on the 2018 Mazda6 Signature. During PDI, make sure all 4 cameras (front (1), right side (2), left side (3) and rear (4)) are working and displaying an image on the MAZDA CONNECT screen. This check will be added to the PDI sheet as soon as possible.

Press the 360 degree monitor switch (5) on the left side of the dash to turn the system on and off. The system has 5 screen display patterns for the top view, top view/rear view, front wide view, rear wide view, and side view. You can switch between each screen display by pressing the commander switch (6) or touching the camera switching icon (7) on the touchscreen. If there is an issue with the system, refer to MGSS online instructions for troubleshooting procedures.
