	TECHNICAL SERVICE BULLETIN				
SUBJECT: DATA COLLECTION: EXTRACT CALIFORNIA					
00000001.	EMISSIONS DATA FROM ECU (DC18)				

***** NOTICE

This bulletin has been revised to include additional information. New/revised sections of this bulletin are indicated by a black bar in the margin area.

This bulletin provides information related to extracting "in use performance tracking" emissions data from the Engine Control Unit (ECU) of certain vehicles sold in California. The California Air Resources Board (CARB) requires the emissions data from vehicles with a minimum of 3,000 accumulated miles without reprogramming or resetting. To facilitate collection of this data at the dealer level, KDS screenshots will allow the capture of relevant parameters.

* NOTICE

If the vehicle meets the criteria below, California dealers must perform this data collection on vehicles whenever an affected vehicle is in the shop for any maintenance or repair.

This data collection does not apply to vehicles or dealers operating outside of California.

Once sufficient data is collected, individual line items per model may be <u>closed</u> <u>without updates to the TSB</u>. Once a line item is closed on DCS, no further data collection is required. <u>Data collections initiated after a line item is closed are subject</u> to chargeback.

For vehicles <u>listed on DCS as requiring this procedure</u>, follow the instructions in this bulletin after confirming that the following criteria are met:

- WebDCS shows this as an open Data Collection code DC18XXXX (depending on model; see table on page 8) for the vehicle.
- Vehicle has more than 3,000 accumulated miles on its odometer.
- Vehicle repair history does not show battery replacement/disconnection/reset or an ECU update done in the last 3,000 miles, because IUMPR (In Use Monitor Performance Ratio) data would have been cleared by such an event.
- Vehicle does not have the check engine light on.

SUBJECT:

DATA COLLECTION: EXTRACT CALIFORNIA EMISSIONS DATA FROM ECU (DC18)

* NOTICE

If a vehicle meets the above criteria, collect data prior to any other campaign or repair-related activities.

<u>IMPORTANT</u>: A number of received data submittals are incomplete and are therefore not usable. Examples: not all pages submitted, incomplete VECI label Group number, no mileage reported, etc. In order to ensure 100% complete and valid data submittals as well as to ensure related warranty claims will be processed without delay and not be subject to chargebacks, carefully review and adhere to the updated process steps below:

KDS Service Procedure:

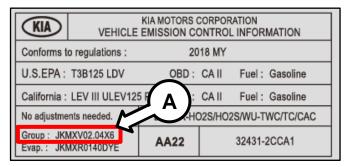

***** NOTICE

The KDS tablet MUST have a SD Card installed for this procedure.

1. Open the engine compartment and locate the Vehicle Emission Control Information label located on the underside of the hood.

Record the 11-digit "**Group**" number (A) for later entry into a form.

2. Connect the VCI-II to the OBD-II connector, located under the driver's side of the instrument panel.

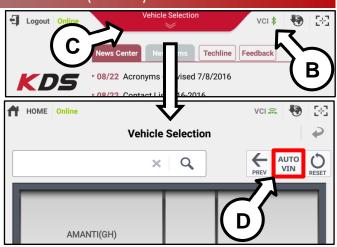

3. With the ignition ON, turn ON the KDS tablet. Select **KDS** from the home screen.

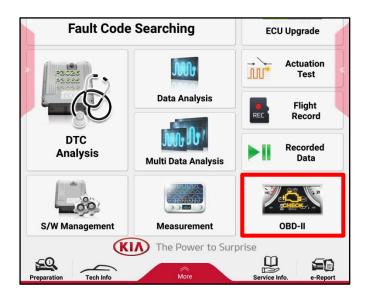

SUBJECT:

DATA COLLECTION: EXTRACT CALIFORNIA EMISSIONS DATA FROM ECU (DC18)

4. Confirm communication with VCI (B) and then configure the vehicle (C) using the **AUTO VIN** (D) feature.

5. From the KDS Home Screen, select **OBD-II**.

6. Select In Use Performance Ratio \rightarrow Gasoline.

7. Use the Screen Capture function (E) located at the upper right corner to save a screenshot of the data.

***** NOTICE

DO NOT use the Home/Power or "Data Capture" for the screen capture.

***** NOTICE

A SD Card <u>MUST</u> be inserted into the KDS tablet to save KDS images.

DATA COLLECTION: EXTRACT CALIFORNIA EMISSIONS DATA FROM ECU (DC18)

9. The KDS will set up a destination folder and file name to save the screenshot.

Add the captured page number to the end of the existing file name.

Example:

CADENZA(YG)_20180403_105657_page1

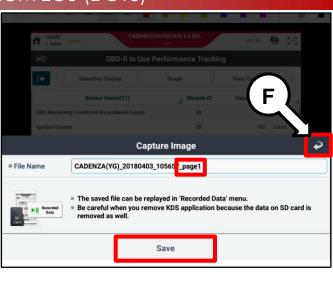

Click **Save** then return to the "OBD-II In Use Performance Tracking" screen by selecting the **Return Arrow** (F) on the screen.

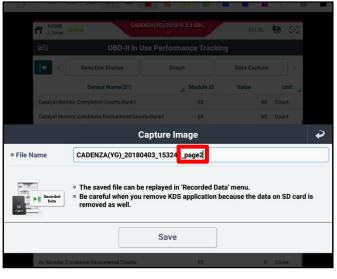

10. If the data list is longer than one (1) page, repeat steps 7-9 to capture the rest of the data list and be sure to add the page number to the file name as mentioned in step 9. If necessary, repeat until all pages are saved.

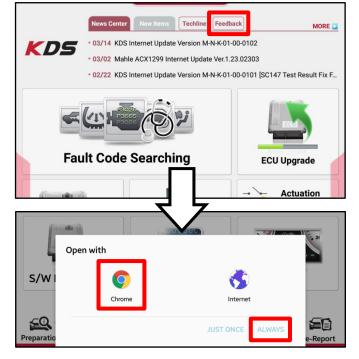

If the data list is longer than one (1) page, repeat steps 7-9 and ensure all data is captured.

 Once all data has been captured, return to the KDS Home Screen and select Feedback. If prompted for selection of a browser, select Chrome and then select Always.

12. Enter your dealer code, your name, and email address, VIN, model, model year then fill in the Subject and Description fields with the following:

Subject: enter "Data Collection"

Description: enter the RO# and VECI label Group# written down during step 1 of this procedure.

* NOTICE

Make sure the email address is entered correctly or the Feedback form will fail to submit.

13. Select a **Choose File** at the bottom of the screen.

Please enter the following information. Please be specific in the text and include screen captures to include the navigation path. *fields are required.
* Dealer Code
* Sender Name
* Sender E-Mail
