Subject: New Software for DEIS Diagnostic System

As part of our policy of product improvement, the software described above is now available.

		New version
Module 0	Portal and Troubleshooting	49
Module 1	DEIS Diagnostic software	80
Module 2	Technical Documentation	12
Module 3	Tools	7

The new version introduces support for the **Portofino** model.

- IMPORTANT -

Due to its size and the large amount of new content introduced, this software update will be rolled out progressively.

- IMPORTANT -

To speed up the diagnostic process, it is recommended that the DEIS tester is left on throughout the working day.
