

Height Control Valve Link Assembly Kit

LIT NO: P56044

DATE: March 2018

PAGE: 1 of 2

Hendrickson Trailer Commercial Vehicle Systems announces a change to the Height Control Valve Bolted Link Assembly Kit, S-14187. The change is to the hex head screw used to attach the two link assemblies together (*circled below*). In November 2017, we began supplying a more robust screw in the kits.

*Height Control Valve
Link Assembly Kit (S-14187)*

To meet demand, the new screw was sourced from two suppliers. Image A (hex head) shows the original screw, which is no longer being supplied as inventory has been exhausted. Images B (flanged hex head) and C (hex head) show the new screws currently being supplied. The new screws will not be mixed within a link assembly kit, but the kits could be mixed within an order.

– Gold Appearance*

The S-14187 HCV Link Assembly Kit is used in conjunction with the VS-227 replacement height control valve and VS-228 replacement height control valve with integral dump. It is also included in Hendrickson's Height Control Valve Kits, listed below.
