URGENT - DISTRIBUTE IMMEDIATELY

Date: January 8, 2018

Subject: Revision of Population - 17488 - Service Update
Rear Brake Caliper Bolt Loose or Missing

Models: 2018 Cadillac ATS, CTS

To: All General Motors Dealers

On January 5, 2018, General Motors released Service Update 17488. We have since identified 152 vehicles which did not belong in the involved population. These VINs were removed from the involved vehicle population and the Investigate Vehicle History (IVH) screen in the GWM system will be updated later this morning. The attached revised list provides the Vehicle Identification Number (VIN) of all involved vehicles in dealer new inventory.

To avoid confusion, a separate column within this attachment will show the list of 152 VINs removed from the population.

We apologize for any frustration this has caused.
