File in Section: -

Bulletin No.: 18-NA-082

Date: March, 2018

## TECHNICAL

**Subject: Rattle Noise from Left Side of Steering Column When Driving Over Rough Roads**

Brand:	Model:	Model Year:		VIN:		Engine:	Transmission:
		from	to	from	to		
Chevrolet	Camaro	2016	2018			All	All

<b>Involved Region or Country</b>	North America and N.A. Export Regions
<b>Additional Options (RPOs)</b>	Equipped with HEAD UP DISPLAY-WINDSHIELD (RPO - UV6)
<b>Condition</b>	Some customers may comment on hearing a rattle noise coming from the left side of the steering column while driving over rough roads.
<b>Cause</b>	<div style="text-align: right;">5001948</div>  <p>The cause of the condition may be that the Head Up Display (HUD) switch assembly may have excess play to the surrounding bezel, allowing it to rattle.</p>
<b>Correction</b>	Apply BRS flocking tape to the HUD switch following the steps in the Service Procedure below.

## Service Procedure

1. Remove the HUD switch assembly and bezel:

5001949

- 1.1. Using a trim stick, or suitable tool, carefully pry the left (outboard) side of the HUD bezel from the IP.
- 1.2. Once the left side releases from the IP, pull the assembly outboard again to fully detach the assembly from the IP.
- 1.3. Disconnect the electrical connector.

5001951

2. Remove the switch assembly from the bezel.
3. Cut two 63.5 mm (2.5 in) length pieces of Kent Automotive BRS Tape P/N #13485, or equivalent flocking tape.

5001953

4. Apply the tape to BOTH the top and bottom of the switch.
5. Reinstall the switch to the bezel.
6. Reconnect the electrical connector.

5001954

7. Reinstall the switch and bezel assembly to the IP by positioning the right side retaining tab first, then pushing and fully seating the left side.

## Parts Information

Order BRS Tape from Kent Automotive at 1-888-YES-KENT, or online at [www.kent-automotive.com](http://www.kent-automotive.com).

Description	Part Number	Material Allowance
Kent Automotive BRS Tape	KT 13485 (1 mm thick, 10 mm wide)	42 cents (U.S.) 63 cents (Canada)
