

Activity Key Programming.

Please programme the existing Activity Key to the vehicle. The Activity Key can be programmed to the vehicle without opening the box, locating the clear lid of the box against the antenna location to the LHS of the number plate light. As shown in image above.

Note: Activity Key ID is located as shown below. This will be required during the application.

Leisure Key Barcode
First 8 characters are the Key ID ignoring
the first * and last 3*

Pathfinder will ask for Code ->
