Identifying ABS Power Cable Harness

In our efforts to expedite part handling, it is important that the correct part(s) are being sent to the appropriate vendor(s). The biggest issue we are seeing is with the harnesses, specifically, the ABS power cable.

Phillips and T.C. International are the two manufactures that supply the ABS power cable to Utility. Both manufactures have identifiable markings on their components. It is important that you identify the correct manufacture before shipping the parts. Please refer to image below to identify the manufacture markings. If you are unable to identify the manufacture of the component, we always recommend you contact your Regional Support Team.

T.C. International will state "TC" followed by the part number on the plug

Phillips will state "PHILLIPS" on the plug

Note: Phillips will have their mold on ALL their harness components

Phillips

Please ship the full harness and a copy of the claim to the address listed below.

Phillips Industries
Electrical Harness Division
13493 Port Drive
Unitec Industrial Park
Laredo, Texas 78045

T.C. International

Please contact your Regional Support Team and ship the harness and a copy of the claim to their attention.

Utility Trailer Manufacturing
Attn: Your Regional Support Team Name
17295 Railroad Street
City of Industry, CA 91748
