

# SS 1033329 TBB Air Gauge reading high

---

This Service Solution does not imply any special warranty coverage. Standard warranty guidelines and coverage apply. This information is provided to assist Dealers/Customers in checking the Air Governor Cut out and the Air Gauge showing 150 PSI. The Air Governor may cut out, and the Gauge is showing 150 PSI. This may not be the case. The Pressure transducer Module 06-85488-000 or 001 has a 5% plus or minus tolerance. The Air tank still has a 150 psi safety valve. If elect to verify install mechanical air gauge inline

## **Applicable Vehicles**

C2

### **Issue:**

No issue preventing questing why the Governor cuts as and the Gauge may show 150 psi

### **Solution:**

Nothing
