Distribute to:	**After Sales Manager** **Executive Manager** **Service Manager** **Sales Manager**	**Warranty Staff** **Technician(s)** **Parts Staff**

Reason for this Service Bulletin

The Aston Martin Diagnostic System (AMDS II) does a check for software updates each time the programme is launched. You must do the procedure that follows when software updates are downloaded.

Workshop Procedure

CAUTION: CONNECT THE AMDS TO AN ELECTRICAL SUPPLY WHEN YOU DO THE PROCEDURE THAT FOLLOWS. IF THE AMDS BATTERY BECOMES DISCHARGED DURING THE SOFTWARE UPDATE, THE UPDATE CAN FAIL.

1. If an update is available, the "Application Install – Security Warning" window will appear (refer to Figure 1). Click "Install".

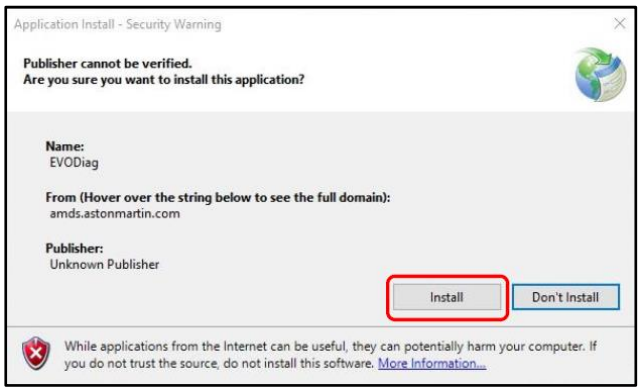

Figure 1

2. The update will download from the AMDS server (refer to Figure 2).

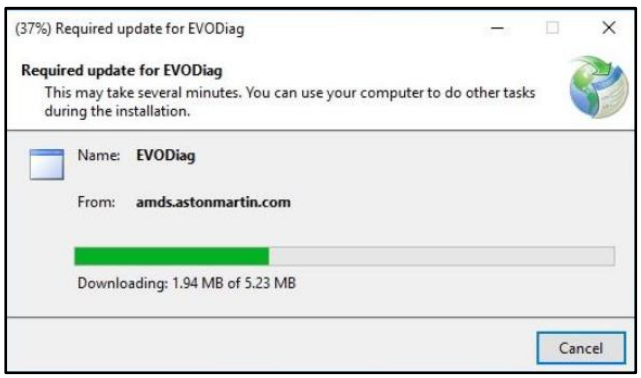

Figure 2

3. If the "Windows protected your PC" window appears, click on the "More info" hyperlink (refer to Figure 3).

Note: Do not click the "Don't run" button. If you do, AMDSII will not function correctly.

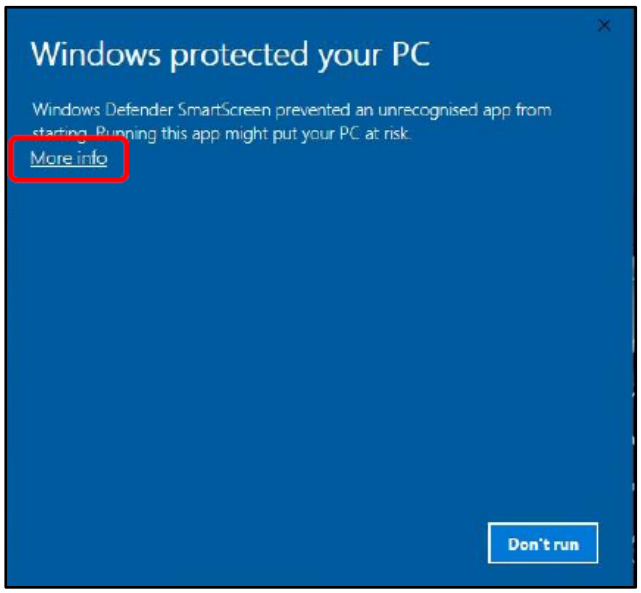

Figure 3

4. Click the "Run anyway" button (refer to Figure 4).

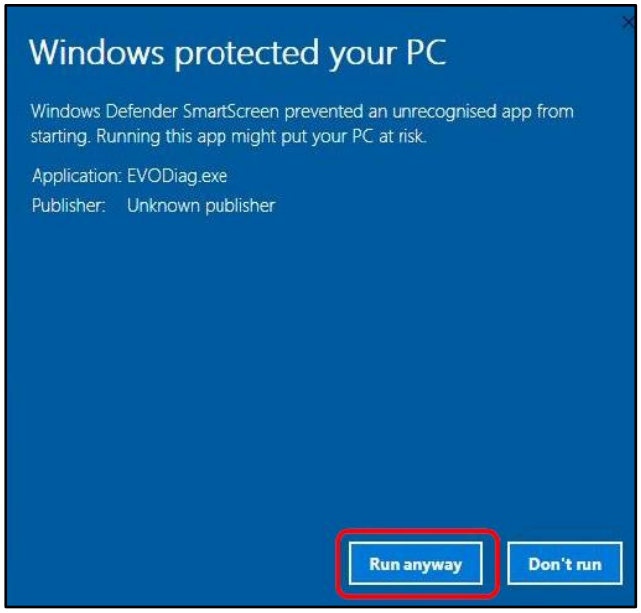

Figure 4

5. AMDSII will then open with the update successfully installed (refer to Figure 5).
