LETTER OF INFORMATION FOR BUSES CONTAINING PLASTIC PEX FITTING AND COOLANT LINES

This information letter is to communicate important information related to preventive care of the Plastic PEX fittings and coolant lines used in your vehicle's coolant system.

As provided in sections 14-117 and 99-000 of the Nova Bus' maintenance manual, the bus coolant system includes Plastic PEX fitting and coolant lines, which are located in the roof of the vehicle.

WARNING

The structural integrity of the PEX fittings and coolant lines may be affected if coated with liquids and/or lubricants, which may lead to coolant leaking into the passenger compartment.

If it is suspected that the Plastic PEX fittings or lines have been in contact with other substances than the coolant referenced in the maintenance manual and parts manual, it is recommended to replace them as a preventive measure.

Further, please note that the brass PEX fittings are available for purchase. Please refer to the list of equivalent brass PEX fitting part number on page 1.
