

PRODUCT UPDATE

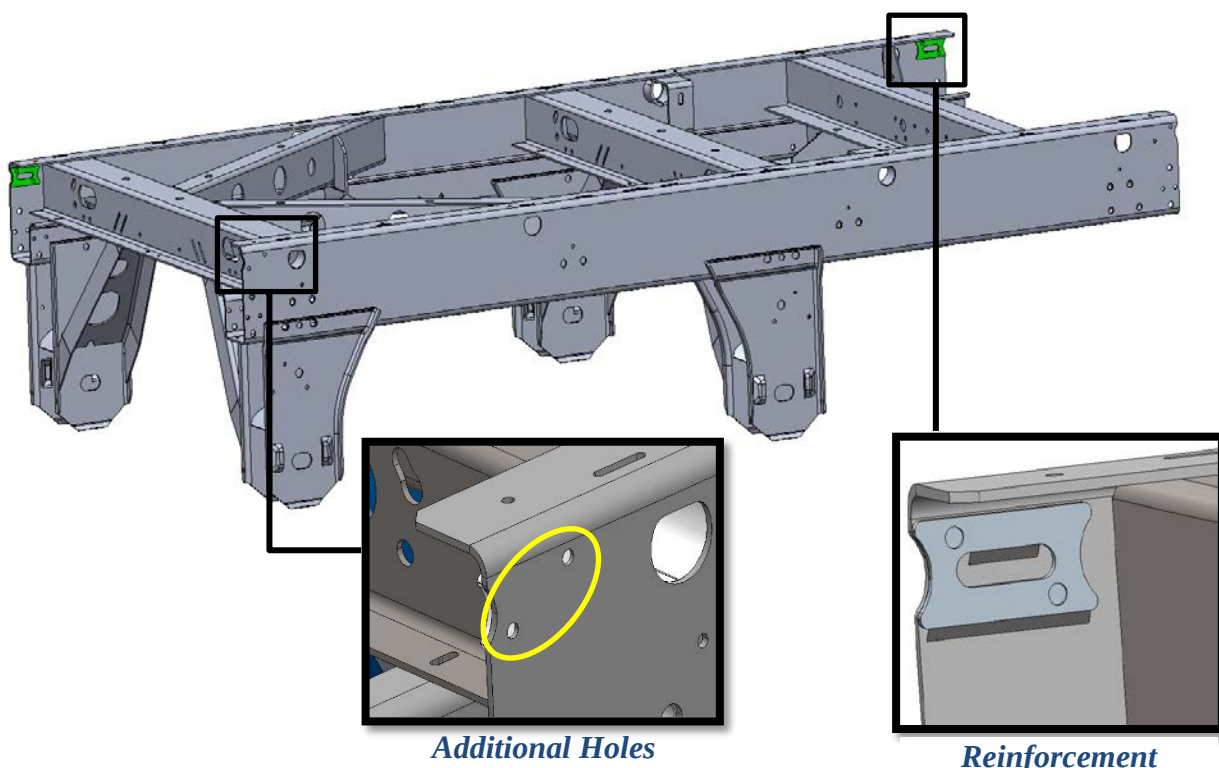

ULTRAA-K® Slider Box

LIT NO: P36027

DATE: May 2018

Beginning in May 2018, new production and aftermarket shipments of ULTRAA-K® slider boxes will feature additional holes on the rail at all four corners of the slider box. This change has no effect on product performance. ULTRAA-K and AMBOX model numbers will remain unchanged.

Hendrickson Trailer Commercial Vehicle Systems is excited to announce a further refinement to the ULTRAA-K® slider suspension system. Beginning in June 2018, ULTRAA-K sliders will feature a new reinforcement plate to enhance performance under aggressive sliding conditions. Located at the inboard end of the slider main rails, these reinforcement plates will not affect ULTRAA-K or AMBOX part numbers. Hendrickson is committed to providing world class products and service, this change is another incremental step in providing customers the very best slider suspension system.

Additional Holes

Reinforcement

As always, Hendrickson is committed to supplying innovative products that enhance the value, serviceability and lifespan of your vehicle. Please contact us at 1-866-RIDEAIR (743-3247) or visit www.hendrickson-intl.com for more information.
