Product Change Notice - Trolley tab spacer kit screw with attached star washer

Dear Valued Customer:

Please be advised, to facilitate ease of installation by the OEM, Lippert Components intends to change its trolley tab spacer kit to include a screw with a star washer already attached (Fig. 1).

Currently, the screw and star washer are provided separately, attached together at the OEM and then installed on the system (Fig. 2).

This change will be made on a running basis, starting immediately. No new part numbers are required and current inventory does not need to be replaced. The change was made to simplify the screw installation procedure for our customers.
