Dear Valued Cedar Creek Owner,

We are reaching out to you because it has been brought to our attention that there may be a cosmetic issue with the exterior gelcoat sidewalls on your Cedar Creek with the serial number, 4x4TCRS22J5

Our supplier utilized a substitute backer in their manufacturing process which may lead to pronounced "waves" in the sidewall visible between the 16 inch on center, or less, aluminum studs. Note, it is typical and normal to see some fluctuation in the gelcoat between the aluminum studs. This is a pronounced deviation that should be easily detected. Again, this is a cosmetic issue, not a safety issue, and does not interfere with your use of the product.

You should inspect your unit for the "waves" upon receipt of this letter and periodically thereafter throughout the season. In the event that you believe your unit has the identified condition please contact me, Craig Clair, at 260-593-2402 or cclair@forestriverinc.com for assistance.

This condition will be rectified at no cost to you, our valued customer, for a period of up to 2 years from the date of your purchase.

We appreciate your business!

Sincerely,

Craig Clair
General Manager
Cedar Creek Division of Forest River, Inc.
