Subject:

Wheel End Component Change – Wheel Bearings, Wheel Seals, and Hubcaps

Description:

On May 29th we changed the wheel bearings, wheel seals and hubcaps that we install at our factory and at our Branch facilities to Stemco components. The wheel seal that we will be using as standard position will be the Stemco HP Guardian Concept 5 seal. The field success of the Concept 5 seals that we have installed is notably better than the earlier versions of the Stemco seal and markedly better than the performance that we have seen with the SKF wheel seals.

We will offer a three year parts and labor warranty on the wheel seal and bearings.

We will also be offering the Stemco Grit Guard seal for those especially challenging applications. We recommend the use of the Grit Guard seal in applications such as windrowing sand or rock. The Grit Guard seal will carry a two year parts and labor warranty.

Aftermarket Parts:

Kit Bearing & Race Inner TQ	#020-52615
Kit Bearing & Race Outer TQ	#020-52614
Kit Bearing & Race TP	#020-52610
TN/TQ HP Guardian Concept 5 Wheel Seal	#020-09111S
TP HP Guardian Concept 5 Wheel Seal	#020-09707S
Kit TN/TQ Grit Guard Wheel Seal	#020-28500
Kit TP Grit Guard Wheel Seal	#020-52029
