**Emission Warranty Extension: MIL Is On With DTC P0420 or P0430  
(All States Except CA, CT, ME, MA, NY, and VT)**

VIN: <VIN>

Dear <First Name/Last Name>:

In some cases, the electronic control module (ECM) misinterprets sensor inputs as a warm-up three-way catalytic converter (TWC) deterioration and turns the malfunction indicator lamp (MIL) on with diagnostic trouble code (DTC) P0420 or DTC P0430 (catalyst system efficiency below threshold) stored.

To ensure your confidence in our product, American Honda is extending the warranty on the TWC 6 months from the launch of the campaign or 200,000 miles, whichever comes first.

**This warranty extension expires December 31, 2018.**

This extension of the factory warranties provides coverage for the current owner and any subsequent owners. The warranty extension is valid except for any vehicle that has ever been declared a total loss or sold for salvage by a financial institution or insurer, or has a branded, or similar title under any state's law.

**What should you do?**

If the MIL indicator in your vehicle comes on, go to any Honda dealer to have your vehicle inspected. If DTC P0420 or P0430 is stored, Honda will replace both the front and rear TWCs, and update the software in your vehicle **free of charge**.

**Lessor Information**

Please forward a copy of this notice to the lessee.

**What to do if you feel this notice is in error**

If this is not the case, or the name/address information is not correct, please fill out and return the enclosed, postage-paid Information Change Card. We will then update our records.

If you previously paid to have your front and/or rear TWCs replaced because of deterioration, you may be eligible for reimbursement, even if you no longer own the vehicle. Refer to the attached Instructions for Reimbursement form for eligibility requirements and the reimbursement procedure.
