CMX300/500 Emission Recall – Important Parts Update

7/12/18

Dear Honda Powersports dealer,

Please be advised that repair parts for this campaign are now available on open order with a line item restriction of one.

Refer to service bulletin CMX300/500 #1 for details and repair procedures.

IMPORTANT NOTE: Your dealership may have already been shipped a supply of these repair parts. Make sure to check your inventory before ordering additional parts as supplies are limited. Also, make sure you repair only units affected by this campaign - **Only California and ABS models are affected!**

Please contact your District Service Manager if you have any questions.

Sincerely,

American Honda Motorcycle Field Service
