July, 2018
Page 1 of 2

SUBJECT: 3000/4000 Series Filter Kits

MODELS AFFECTED: All 3000 and 4000 Product Families Transmissions

Introduction:

The 3000 and 4000 Series filter kit part numbers have been superseded as shown in [Table 1](#).

Interchangeability is unaffected. Parts within Former and Current kits may be interchanged and mixed.

Detail part numbers within each kit will continue to be serviceable.

Please Note: Allison Transmission Service Information Letters are intended for use by professional, trained technicians, not for the “do-it-yourselfer.” They are written to inform those technicians of conditions that may occur on some transmission models (or serial numbers ranges) or to provide information that could assist in the proper servicing of a specific Allison transmission. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, do not assume that the Service Information Letter applies to your transmission, or that your transmission has the condition described. Product evolution and information updates are inevitable. Please see your authorized Allison Transmission service dealer or distributor to understand if your particular transmission may benefit from the information contained within the Service Information Letter.

Please continue placing orders for the former part numbers. Once the former material is exhausted, your order will automatically be redirected to the current part number. When you receive your first shipment of the current part number, please update your order information accordingly.
