2018 MURANO; BRAKE BOOSTER DESIGN CHANGE

APPLIED VEHICLES: 2018 Murano (Z52)
APPLIED DATE: February 14, 2018

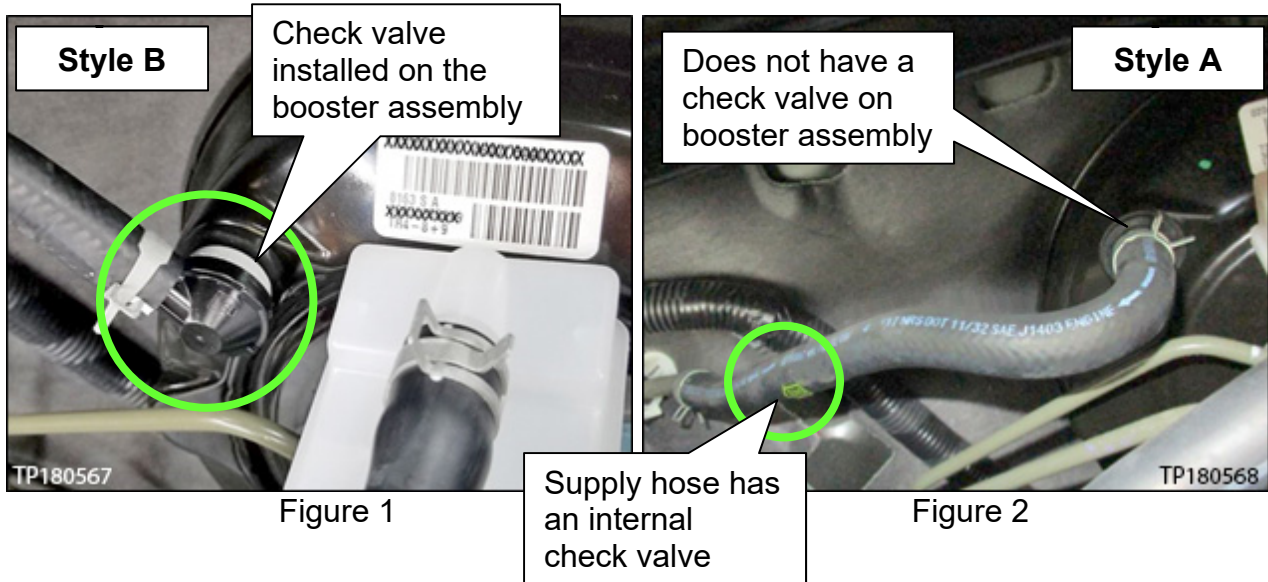

SERVICE INFORMATION

A change has been made to the brake booster assembly (booster) and brake booster supply hose (supply hose) for the Applied Vehicles built on or after the Applied Date.

- Vehicles built on or after the Applied Date will have the booster's vacuum supply check valve installed onto the booster (style B) instead of being part of the supply hose.
- Vehicles built before the Applied Date will continue to use style A.

Visually confirm which style of booster is original equipment for the vehicle before ordering replacement parts.

IMPORTANT: Style B booster and supply hose are not interchangeable with style A parts, and cannot be used on vehicles built before the Applied Date.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.

If the vehicle was manufactured in February 2018, visually confirm if style A or style B parts are present before ordering replacement parts.

- Refer to the Parts Information below for style specific part numbers.

IMPORTANT: Style A and style B parts cannot be interchanged.

PARTS INFORMATION

DESCRIPTION		PART NUMBER	QUANTITY	
Style B (Built on or after 2/14/2018)	BOOSTER ASSY-BRAKE	47210-5AA0C	1	(1)
