Troy, Michigan 48064 USA

PRODUCT INFORMATION LETTER # 664

Date: July 16, 2018

Subject: All Meritor FULL Round Driveline Series Discontinuation

Models: MXL 16, 17, 176 and 18 Series

Please be advised that effective September 30th, 2018, Meritor will discontinue offering its Full Round Style drive shafts for production. Customers will be able to utilize the Easy Service Style drive shafts. The 16, 17, 176, and 18 MXL FULL Round product lines will be replaced by the 16, 17, 176 and 18MXL Half Round series.

All truck orders with Full Round will be honored when ordered before September 30th, 2018.

After this date orders will be declined and suggested the Easy Service equivalent instead.

Full Round

Easy Service

MXL Half Round Benefits

- Extended lube u-joint provides additional protection and less maintenance
- Easy Service strap design for easy installation and service
- Double lip seals provide ultimate protection against contaminants for extended u-joint life
- Nylon thrust washers eliminate metal-to-metal contact to prevent wear and extend u-joint life
- 3/350/P,1/Unl/P&L Linehaul warranty

 PRODUCT INFORMATION LETTER # 664**Aftermarket**

Please be aware that the Full Round Style service components for the 16, 17, 176 and 18 MXL series will still be available through Meritor's Aftermarket Division.

Full Round or Easy Service components are available through normal channels. Contact Meritor's Commercial Vehicle Aftermarket in Florence, Kentucky, at **888-725-9355**.

For more information on Meritor's Easy Service MXL series, contact your DriveForce™ or Meritor representative. Additional product application and service information for Meritor drive axles are available through Literature on Demand at www.meritor.com.
