

HONDA Service Bulletin 18-070

August 9, 2018

Version 1

Non-Compliance Recall: Emission Label (Service Part)

CUSTOMER INFORMATION: The information in this bulletin is intended for use only by skilled technicians who have the proper tools, equipment, and training to correctly and safely maintain your vehicle. These procedures should not be attempted by "do-it-yourselfers," and you should not assume this bulletin applies to your vehicle, or that your vehicle has the condition described. To determine whether this information applies, contact an authorized Honda automobile dealer.

AFFECTED VEHICLES

Year	Model	Trim	VIN Range
1995	Accord	ALL	Check the iN VIN status for eligibility.
1995	Accord Wagon	ALL	Check the iN VIN status for eligibility.
1998-99	Accord	ALL	Check the iN VIN status for eligibility.
2003-07	Accord	ALL	Check the iN VIN status for eligibility.
2008-12	Accord	ALL	Check the iN VIN status for eligibility.
2013	Accord	ALL	Check the iN VIN status for eligibility.
2016	Accord	ALL	Check the iN VIN status for eligibility.
2000	Civic	ALL	Check the iN VIN status for eligibility.

2010	Insight	ALL	Check the iN VIN status for eligibility.
2004	Pilot	ALL	Check the iN VIN status for eligibility.
2015	Pilot	ALL	Check the iN VIN status for eligibility.

BACKGROUND

Emission certification labels that were replaced on a small number of vehicles may have been replaced with a label listing incorrect information. The affected emission labels are replacement service parts, and were not installed at the factory; they were installed during post-manufacturing repairs that required replacement of the underlying part. This will cause the vehicle to be non-compliant with emissions regulations.

CUSTOMER NOTIFICATION

Owners of affected vehicles will be sent a notification and a label for this campaign.

Do an iN VIN status inquiry to make sure the vehicle is shown as eligible.

Some vehicles affected by this campaign may be in your used vehicle inventory.

CORRECTIVE ACTION

If the customer comes to the dealer and requests the label to be replaced, refer to LABEL REPLACEMENT and replace the label.

PARTS INFORMATION

Part Name	Part Number	Quantity
Vehicle Emission Control Information Label	Controlled Part	1

NOTE

Customers were sent a label. Only order if it was lost or damaged.

WARRANTY CLAIM INFORMATION

Use this warranty information if the customer has lost or misplaced the label. The inspection and application can be done on the service drive.

Operation Number	Description	Flat Rate Time	Defect Code	Symptom Code	Template ID	Failed Part Number
1200A3	Clean and inspect the emissions label. (Label is correct)	0.3 hr	6KL00	M1Z00	A18070A	17277-PAA-L71
1200A4	Clean and inspect the emissions label. (Label is not correct)	0.3 hr	6KL00	M1Z00	A18070B	17277-PAA-L71
A	Apply emissions label.	0.1 hr				

Use this warranty information if the customer brought the label to the dealership to be applied. The customer's label can be applied on the service drive.

Operation Number	Description	Flat Rate Time	Defect Code	Symptom Code	Template ID	Failed Part Number
1200A5	Clean and apply customers label. (on the service drive).	0.2 hr	6KL00	M1Z00	A18070C	17277-PAA-L71

Skill Level: Repair Technician

INSPECTION PROCEDURE**NOTES**

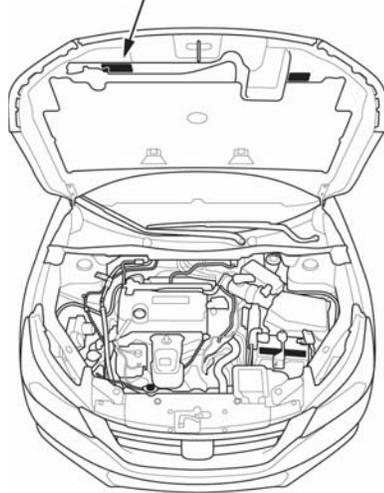

- Do this procedure only if this campaign shows incomplete in the VIN Inquiry status, or if the customer does not have the replacement label that was sent.
- The vehicle emission control information label is a controlled part. Make sure you have the VIN available if it is necessary to order a new one.

1. Open the hood and locate the vehicle emission control information label.

NOTE

The label location will vary depending on year and model. Refer to the service information.

EMISSION CONTROL INFORMATION AND ENGINE COOLANT INFORMATION

2013-2016 ACCORD

EMISSION CONTROL INFORMATION AND ENGINE COOLANT INFORMATION

2017 CIVIC

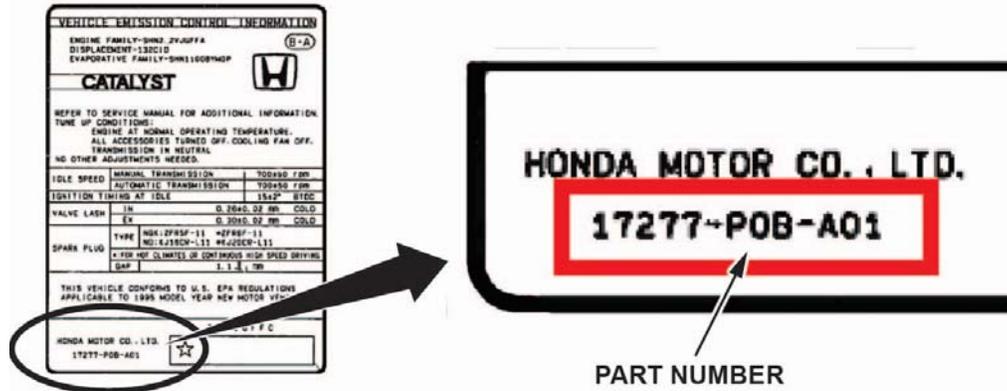

2. Clean the label using alcohol or mild detergent and a clean shop towel.
3. Locate the Parts ID section of the label.

**1995 ACCORD,
ACCORD WAGON,
AND DEL SOL**

PARTS ID SECTION

ALL OTHERS

4. **1995 Accord, Accord Wagon, and Del Sol only:** Compare the part number on the label to the part number in the table below:

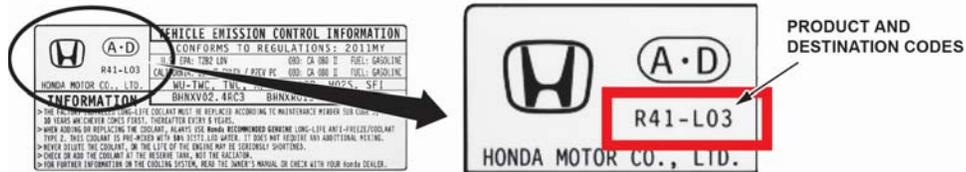

Year	Model	Certification	Part Number
1995	Accord	49 States	17277-P0B-A01
1995	Accord Wagon	California	17277-P0H-L10
1995	Del Sol	49 States	17277-P28-A12

Does the part number on the vehicle's emission control information label match the part number in the table?

YES - The correct label is installed. No further action is necessary.

NO - The label is incorrect. Go to LABEL REPLACEMENT.

- All except 1995 Accord, Accord Wagon and Del Sol:** In the Parts ID section of the vehicles emission control information label, locate the product and destination codes.

- Using the online version of this bulletin, search the VIN.

Enter a VIN to obtain the Product and Destination Codes

SUBMIT

Do the returned product and destination codes match the label?

YES - The correct label is installed. No further action is necessary.

NO - The label is incorrect. Go to LABEL REPLACEMENT.

LABEL REPLACEMENT

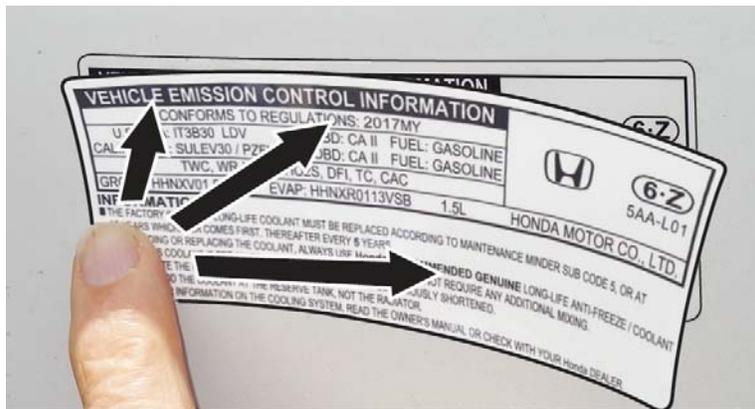

NOTES

- If the replacement label has been lost or damaged, a new vehicle emission information label must be ordered. On the iN refer to Parts > Parts Library > Parts System Guide > Ordering > Special Ordering Programs and Procedures > Controlled Parts and Emission Labels. A part number is not required as the system will assign the correct part number based on the VIN.
- If you need to order a label, have the service advisor inform the customer that they will need to return to the dealer once the replacement label arrives.

1. Clean the existing label with alcohol or mild detergent and a clean shop towel.
2. Peel off the backing from the new label and apply it over the existing label.

NOTES

- Make sure the surface is clean and dry before applying the new label.
- To avoid tearing the label, do not reposition it once you begin to apply it.
- Apply the label slowly, from one end to the other.
- To avoid wrinkles in the label, press it down firmly once it is applied.
