

Cargo Area Not Lit?

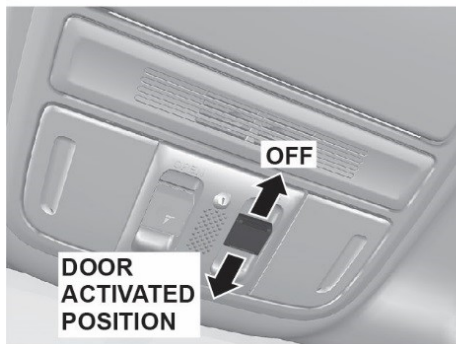

AFFECTED VEHICLES

Year	Model	Trim
2017	CR-V	ALL
2018	CR-V	ALL

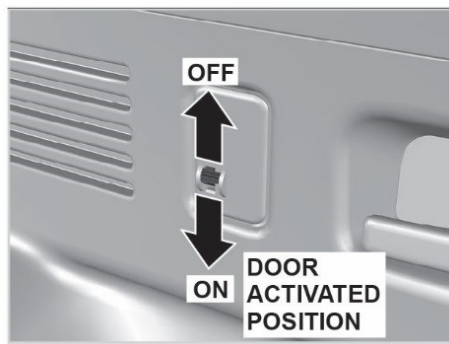

If the cargo area is looking on the dim to dark side, chances are the interior lights switch in the overhead console and the cargo area light switches in the cargo area just need to be set.

Make sure the interior lights switch is set to the **door activated** position and the cargo area light switches are set to **ON**.

OVERHEAD CONSOLE
(Models with moonroof)

CARGO AREA

With the interior lights switch set to the **door activated** position, the interior lights will come on when any of the doors are opened. With the cargo area light switches set to **ON**, the cargo area lights will come on when the tailgate is opened and will go off when it's closed.

Be sure to pass this info along to the service advisors so they can educate their customers.
