

Service Campaign Bulletin

Mercedes-Benz

Campaign No. 2018050005, June 2018

TO: ALL MERCEDES-BENZ CENTERS

SUBJECT: **Model 222 vehicles, Model Year 2018**
Apply Preservation Agent to Connection Fitting

Daimler AG ("DAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain MY18 222 (S-Class) vehicles, the connection fitting of the radiator may not correspond to current production specification. As a result, the corrosion-protection of the fitting may be reduced. An authorized Mercedes-Benz dealer will apply a preservation agent to the connection fitting of the additional cooler on the affected vehicles.

Prior to performing this Service Campaign:

- Please check VMI to determine if the vehicle is involved in the Campaign and if it has been previously repaired.
- Please review the entire Service Campaign bulletin and follow the repair procedure exactly as described.

Approximately 19 vehicles are affected.

Order No. P-SC-2018050005

This bulletin has been created and maintained in accordance with MBUSA-SLP S423QH001, Document and Data Control, and MBUSA-SLP S424HH001, Control of Quality Records.

Procedure

1. Remove the front underfloor paneling.
2. Clean radiator connection (**Figure 1**).
3. Apply spray wax around radiator connection (**Figure 2**) to ensure the integrity of the radiator's corrosion protection.

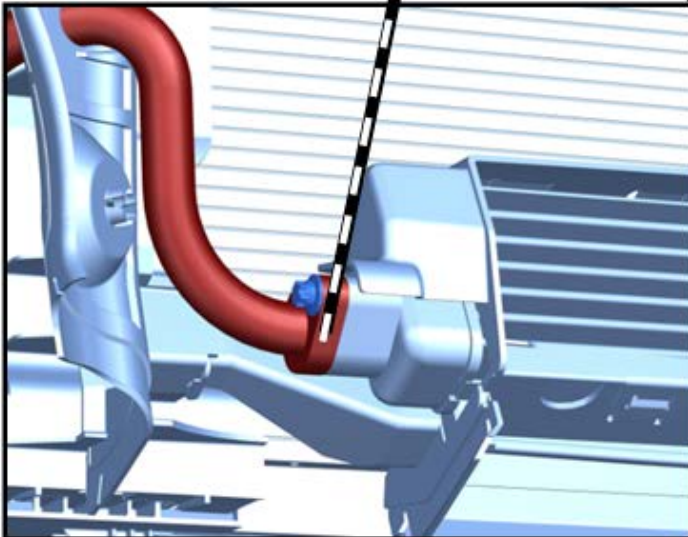

Figure 1: Radiator connection

Figure 2: Waxed radiator connector

4. Reinstall the front underfloor paneling.

Primary Parts Information

Qty.	Part Name	Part Number	Estimated Replacement Rate
0.1*	Preservation agent	A 000 986 33 70 11	100%

i *The preservation agent is to be used for 10 vehicles.

Warranty Information

Operation: Applying preservation agent to connection fitting on additional cooler (02-2317)

Damage Code	Operation Number	Labor Time (hrs.)
20 940 47 7	02-2317	0.6 h

i Note

Operation Number labor times are subject to change.
