August 2018

This notice applies to your vehicle:

Non-Compliance Recall: Emission Label (Emission Certification label previously replaced)

Dear

A small number of vehicles that had to replace the emissions certification label previously may have received a replacement label with incorrect information. This will cause the vehicle to be non-compliant with emissions regulations.

What will Honda do?

American Honda has included the correct emissions label in this letter; refer to the included instructions to replace the label. If you are not comfortable replacing the label, contact any authorized Honda dealer to have the label applied. This work will be done free of charge. Make sure you bring the label with you to the dealership. Please plan to leave your vehicle at the dealer for at least half a day to allow them flexibility in scheduling.

Check Your Vehicle for Open Recalls

To check your vehicle's eligibility for repair under this or any other recall, please access the Honda Recall Lookup tool at www.recalls.honda.com and enter your Vehicle Identification Number (VIN).

Lessor Information

Please forward a copy of this notice to the lessee.

What to do if you feel this notice is in error

Our records show that you are the current owner or lessee of a vehicle involved in this non-compliance recall. If this is not the case, or the name/address information is not correct, please fill out and return the enclosed, postage-paid Information Change Card. We will then update our records.

If you have questions.

If you have any questions about this notice, or need assistance with locating a Honda dealer, please call American Honda's Customer Support & Campaign Center at 1-888-234-2138. You can also locate a dealer online at *Hondacars.com*. Customers in U.S. territories, please contact your local dealer/distributor.

We apologize for any inconvenience this emissions recall may cause you.

Sincerely,

American Honda Motor Co., Inc.
Honda Automobile Division

Emissions Label Instructions

Dear Honda Owner:

Emission certification labels that were replaced on your vehicle may have been replaced with a label listing incorrect information. This will cause the vehicle to be noncompliant with emissions regulations.

What should you do?

American Honda has included the correct emissions label in this letter; refer to the instructions below to replace the label.

Label Replacement Instructions

Emission Label Replacement

NOTE: The emission label is a controlled part. Make sure the Vehicle Identification Number (VIN) on your vehicle matches the VIN on the recall letter you received.

1. Open the hood and locate the VEHICLE EMISSION CONTROL INFORMATION label.
CAUTION: Use caution as the underside of the hood may be hot.
2. Thoroughly clean the surface of the existing label with alcohol or a mild detergent and a clean towel. Allow the area to dry.
3. Peel the backing from the new label and apply the new label over the existing label.

NOTE:

- To avoid tearing the label, do not reposition it once you have begun to apply it.
- Apply the label slowly, from one end to the other.
- To avoid wrinkles in the label, press it down firmly once it is applied.

If you are not comfortable replacing the label, contact any authorized Honda dealer to have the label applied. This work will be done free of charge. Make sure you bring the label with you to the dealership. Please plan to leave your vehicle at the dealer for at least half a day to allow them flexibility in scheduling.
