2018 370Z; BIRD DROPPING REMOVAL FROM HERITAGE EDITION GRAPHICS

APPLIED VEHICLES: 2018 370Z (Z34) (Heritage Edition ONLY)

SERVICE INFORMATION

The following additional steps beyond the Owner's Manual instructions may be required to clean bird droppings from heritage graphics.

1. Fill a container with warm water from the sink.
2. Pour the warm water on the bird droppings to soften and allow to soak for approximately 1 minute.
3. Using a soft cloth, carefully rub the area to remove the droppings.

NOTE: Occasionally, wrinkles may occur from the warm water due to deformation of the clear outer layer of the graphic. If wrinkles occur, warm the graphic using one of the following methods:

1. Let the vehicle stand outside in direct sunlight for approximately 30 minutes in 85°F ambient temperature or higher.
2. If ambient temperature is too low, use a heat gun on low setting to gently warm the wrinkled area.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
