BULLETIN NUMBER:

IB15-X-001B

ISSUE DATE:

MAY 2017

GROUP:

MISCELLANEOUS

IMPORTANT NOTICE – ODOMETER STICKER MUST BE APPLIED WHEN REPLACING THE INSTRUMENT PANEL CLUSTER (IPC) ASSEMBLY

AFFECTED VEHICLES

- 1999-2010MY Isuzu N-Series Vehicles

This bulletin supersedes bulletin IB15-X-001A. This bulletin is being revised to update affected model information. Please discard previous bulletin IB15-X-001A.

INFORMATION

Isuzu is pleased to announce that all current inventories of commercial vehicle instrument panel cluster (IPC) assemblies, speedometers and sub meter assemblies now have the speedometer replacement label included.

This bulletin is to remind dealers whenever the IPC assembly is replaced in an Isuzu-manufactured vehicle, they are to affix an odometer sticker, as the odometer is not programmable. The sticker should be filled out completely with the mileage from the previous odometer reading along with the date of replacement, dealer name and then affixed to the door jamb ("B" pillar) of the vehicle.

Please ensure to record the following by filling out the label clearly using a ballpoint pen:

- Number of Miles/Kilometers
- Date of Installation
- Dealer Name

PARTS INFORMATION

If additional labels are needed, they can be ordered from American Isuzu Parts Distribution Network (AIPDN).
