THE ENGINE SOUND OF THE ACTIVE SOUND DESIGN IS LOUDER AFTER PROGRAMMING

MODEL

F60 (Cooper S Countryman)	
---------------------------	--

Produced through 3/1/17 with B48M engine.

SITUATION

After programming the vehicle with ISTA 4.05.1x or higher, the engine sound produced by the Active Sound Design control module is louder than prior to reprogramming.

CAUSE

Enhanced software for the Active Sound System (ASD) which is a part of ISTA 4.05.1x (I level F056-17-03-5xx) or higher.

CORRECTION

None required.

The sound concept for this Performance Cooper S model/engine configuration has been revised

PARTS INFORMATION

Part exchange and/or reprogramming **will not** modify this situation.

WARRANTY INFORMATION

Not applicable.
