Section: Warranty

Subject: New Time Limit Policy for Warranty Extension Checklists

Effective immediately (all inspections dated October 1, 2018 and later), vehicle checklists/inspections for all Warranty Extensions have expiration dates and must subsequently be renewed. The policies are as follows:

New Power and 4th/5th year Warranty Extensions:

- New Power Certification Form – Valid for 1 month from date of inspection.
- Warranty Extension Certification List – Valid for 1 month from date of inspection.

A customer purchasing the New Power or Warranty Extension must sign the contract within the 1 month in order to avoid needing another inspection. If multiple checklists are needed to complete the purchase, they must all be uploaded to the request.

Each additional checklist must also have vehicle scan data for verification that the car was present for the additional inspection. The date of the scan-in must match the checklist date.

- IMPORTANT -

The extension request will be suspended and subject to rejection if:

- The inspections are not dated and signed.
- The latest inspection date versus the contract signature dates exceeds 1 month.
- No scan in data is provided for the additional checklist(s) if applicable.

All Approved Programs (CPO)

Approved Program (CPO) vehicle checklists are valid for 1 year from the date of the original inspection.

However, if the vehicle has not been sold **after 3 months** from the date of the original inspection, the *Ferrari Approved Light Checklist* must be completed at the point of sale:

- Vehicle arrives: Initial inspections/checklists completed.

Ferrari North America

- After 3 Months from initial inspections/checklist: *Ferrari Approved Light Checklist* must be completed at time of sale.
- After 12 Months from initial inspections/checklist: Initial inspections expire, requiring the process to start over.

When the vehicle is sold, all inspections must be uploaded to the extension request.

Inspection Requirements

- For New Power:
 - Contract printed from the system and signed/dated by the customer
 - New Power Certification Form (Valid for 1 Month)
- For Warranty Extension:
 - Contract printed from the system and signed/dated by the customer

- For New Power APPROVED:
 - Contract printed from the system and signed/dated by the customer
 - New Power Certification Form (Valid for 1 Year)
 - Approved 101 checklist (Valid for 1 Year)
 - Approved Light Checklist (Needed at point of sale if not sold within 3 months of initial inspection)
- For Warranty Extension APPROVED:
 - Contract printed from the system and signed/dated by the customer
 - Warranty Extension Certification List (Valid for 1 Year)
 - Approved 101 checklist (Valid for 1 Year)
 - Approved Light Checklist (Needed at point of sale if not sold within 3 months of initial inspection)

Ferrari North America

- IMPORTANT -

NOTE: Every item required for the extensions must be signed and dated by all parties.

If you have any questions, please contact the Warranty Department.

Thank you for your co-operation.
