Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Chevrolet	Malibu	2016 - 2019	All	All	LKN	MKE

Supersession Statement

This PI was superseded to remove the high voltage battery and internal parts off of restriction. Please discard PIC6194E.

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

Condition / Concern

General Motors Technical Assistance Center part restriction on the High Voltage Drive Motor Battery and Internal Parts for the 2016-2018 Chevrolet Malibu HEV Hybrid has ended. We would like to thank all dealers who participated in this restriction for their cooperation.

The High Voltage Drive Motor Battery Internal Parts can now be ordered through the regular GM CCA parts process or PQC process for required dealers. Use the vehicle identification number (VIN), SI, and the GM Electronic Parts Catalog to determine the correct part to order.

Dealers are now asked to order packs directly from the GM Battery Service Center by calling 1-833-33 GM BSC (1-833-334-6272). Please see the latest version of bulletin: [18-NA-236](#) for the latest information on part ordering and returns for the High Voltage Drive Motor Battery

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.
