

Technical Service Bulletin

55 Rear lid gesture-controlled operation does not work, DTC U115200 stored in comfort control module

55 18 43 2051804/1 July 17, 2018.

Model(s)	Year	VIN Range	Vehicle-Specific Equipment
A4	2017 - 2018	All	With advanced key (hands free trunk opening)
A5, Q5	2018	All	With advanced key (hands free trunk opening)

Condition

Customer states:

- The gesture-controlled rear lid operation does not work.

Workshop findings:

The following DTC is stored in the comfort system central control module, J363 (address word 0046):

- DTC U115200** (Control module for rear lid opening no communication).

Technical Background

Incorrect software in the rear lid opener control module, J938.

Production Solution

Not applicable.

Service

- Verify the condition listed above.
- Perform a reset of the comfort control module 0046 by removing the following fuses from the Relay and fuse carrier 2 (SR2), located in the left rear of the vehicle.

Perform reset with the ignition (KL15) off.

- ST1-SF9
- ST1-SF11
- ST3-SF14

Technical Service Bulletin

3. Wait 30 seconds with all three fuses removed.
4. Reinstall the three fuses.
5. Perform an ignition cycle.
6. If the functionality of the gesture controlled rear lid is restored, no further repairs can be made. This TSB will be updated once software is available to resolve the condition.
7. In the event that functionality is not restored, continue diagnostics with ODIS Guided Fault Finding.

Fuse Reference Chart				
Image Reference	Fuse Panel	Panel Color	Fuse Number	Fuse Rating
A	ST1	Black	9	20A
B	ST1	Black	11	20A
C	ST3	Brown	14	20A

! Note:

In the event that the fuse listed in this TSB does not match the fuse installed in the vehicle, reference the applicable wire diagram for your vehicle.
