Certain 2010 – 2011 Model Year Camry Vehicles Certain 2009 – 2011 Model Year Camry Hybrid Vehicles Repair Coverage for the Dashboard (Instrument Panel)

Background

Toyota has received reports indicating that a combination of high humidity, high temperatures and light intensity may cause the surface of the Dashboard (Instrument Panel) in some of the subject vehicles to become cracked and/or sticky over time.

The Dashboard (Instrument Panel) is covered by Toyota's New Vehicle Limited Warranty for 3 years or 36,000 miles (whichever comes first). However, because we at Toyota care about each customer's ownership experience, Toyota is now offering a voluntary Customer Support Program that applies to cracked and/or sticky Dashboards (Instrument Panels) of covered vehicles as a result of heat, humidity, and light intensity, regardless of whether the vehicle is out of warranty.

The following information is provided to inform you and your staff of the program notification schedule and your degree of involvement.

Customer Support Program Details

The specific condition covered by this Customer Support Program is a cracked and/or sticky Dashboard (Instrument Panel) as a result of heat, humidity, and light intensity over time, regardless of whether the vehicle is out of warranty. It does not cover Dashboards that have suffered damage from abuse, accident, theft, vandalism, misuse, alteration, lack of proper maintenance, fire, or water contamination or any vehicles that are currently or previously titled as "scrap," salvage," or "dismantled." If the condition occurs and is verified, the Dashboard (Instrument Panel) will be replaced with a new one under the terms of this Customer Support Program. This Customer Support Program does not extend or revive the vehicle's original "New Vehicle Limited Warranty" or any other warranty. The timing of any repair under this voluntary Customer Service Program is subject to parts availability.

- This Customer Support Program will be offered for all vehicles until November 26, 2020 regardless of mileage.
- In addition, the Customer Support Program will be available for 10 years from the vehicle's date of first use, regardless of mileage.

This Customer Support Program only covers work performed at an authorized Toyota dealer only.

Covered Vehicles

There are approximately 491,800 vehicles covered by this Customer Support Program. Approximately 900 vehicles covered by this Customer Support Program were distributed to Puerto Rico.

Model Name	Model Year	Approximate UIO	Production Period
Camry	2010 – 2011	475,700	Mid-December 2008 – Early September 2011
Camry Hybrid	2009 – 2011	16,100	Early October 2008 – Late July 2011

Owner Letter Mailing Date

Toyota will begin to notify owners in Mid-June and notifications will be mailed over several months. A sample of the owner notification letter has been attached for your reference.

Technician Training Requirements

The repair quality of covered vehicles is extremely important to Toyota. All dealership technicians performing this repair are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly; technicians performing this repair are required to currently hold at least one of the following certification levels:

- Certified Technician (Any Specialty, with 18+ Months Experience)
- Expert Technician (Any Specialty)
- Master Technician
- Master Diagnostic Technician

Always check which technicians can perform the repair by logging on to https://www.uotdealerreports.com. It is the dealership's responsibility to select technicians with the above certification level or greater to perform this repair. Carefully review your resources, the technician skill level, and ability before assigning technicians to this repair. It is important to consider technician days off and vacation schedules to ensure there are properly trained technicians available to perform this repair at all times.

Remedy Procedures

Technical instructions for this Customer Support Program can be found in T-SB-0039-15.

Inspection Application

Vehicles must be inspected for the condition and inspection results must be fully submitted in the Inspection Application prior to performing any repairs, filing warranty claims, and ordering any parts for this Customer Support Program. *Parts should never be intentionally stocked at the dealership for this Customer Support Program.* Refer to the Job Aide on TIS for instructions on using the Inspection Application.

Parts Ordering Process - Non SET and GST Parts Ordering Process

Due to potentially limited availability, the parts may have been placed on either Manual Allocation Control (MAC) or Dealer Ordering Solutions (DOS). As the parts inventory changes, the ordering process may change. Please check the Toyota Special Activities MAC/DOS report on Dealer Daily for the most up-to-date parts ordering information.

As this is a Customer Support Program, most customers will only request reimbursement from TMS for past replacements; dealers should not increase their stock of related repair parts. Because of the difficulty of manufacturing and shipping the affected parts, *Dealers are requested to only order parts for vehicles experiencing this condition only. DO NOT ORDER FOR STOCK.* As always, if a customer experiences the condition described, dealers should conduct appropriate diagnosis and order the applicable parts.

Refer to Policy Bulletin POL18-02 for additional parts ordering information.

All Customer Support Program (CSP) parts are eligible for the Monthly Parts Return Program. Please refer to PANT Bulletin 2011-087 for campaign parts that are currently returnable under the Monthly Parts Return Program and for additional details.

Reimbursement Procedure

Refer to Policy Bulletin POL18-02 for claim processing instructions. *All parts replaced for this repair are subject to warranty part recovery.*

Claim Filing Accuracy and Correction Requests

It is the dealer's responsibility to file claims correctly for this Customer Support Program. This claim filing information is used by Toyota for various government reporting activities; therefore, claim filing accuracy is crucial. If it has been identified that a claim has been filed using an incorrect opcode or a claim has been filed for an incorrect VIN, refer to Warranty Procedure Bulletin PRO17-03 to correct the claim.

Customer Reimbursement

Reimbursement consideration instructions will be included in the owner letter.

Media Contacts

It is imperative that all media contacts (local and national) receive a consistent message. In this regard, all media contacts must be directed to Victor Vanov (469) 292-1318 in Toyota Corporate Communications. Please do not provide this number to customers. Please provide this contact only to media.

Customer Contacts

Customers who receive the owner letter may contact your dealership with questions regarding the letter and/or the Customer Support Program. Please welcome them to your dealership and answer any questions that they may have. A Q&A is provided to assure a consistent message is communicated.

Customers with additional questions or concerns are asked to please contact the Toyota Customer Experience Center (1-888-270-9371) - Monday through Friday, 7:00 am to 7:00 pm, Saturday 7:00 am to 4:30 pm Central Time.

Thank you for your cooperation.
