**Watch This Special *Tech2Tech*<sup>®</sup> Video!**

We've released a special *Tech2Tech* video "Understanding Oil Dilution" that you need to watch. It concerns the engine oil level reading above the full mark on the dipstick in 2017-18 CR-Vs with the 1.5-liter turbo engine.

Based on that video, we're also releasing a customer-facing video "Understanding Oil Dilution" for our YouTube channel and the Honda Owner's site.

Please take the time to view this important topic. To watch the *Tech2Tech* video, [click here](#). You can also watch it with closed captioning by selecting **CC** in the tool bar or change the video quality by selecting **HD** or **SD**.
