

Preliminary Information

PIC6263A Accessory Power Module (APM) Restriction

Models

Brand:	Model:	Model Years:	VIN:		Engine:	Transmissions:
			from	to		
Cadillac	CT6	2017	All	All	LTG (2.0L)	MRD

Involved Region or Country	North America
Additional Options (RPO)	HP9
Condition	This PI was superseded to remove the high voltage battery and internal parts off of restriction.

Correction:

General Motors Technical Assistance Center part restriction on the Accessory Power Module, also known as the APM, for the 2017 Cadillac CT6 Hybrid has ended.

We would like to thank all dealers who participated in this restriction for their cooperation.

The Accessory Power Module can now be ordered through the regular GM CCA parts process or PQC process for required dealers.

Use the vehicle identification number (VIN), SI, and the GM Electronic Parts Catalog to determine the correct part to order.
