DDC Field Service Campaign D18M2

Description:

Motor Coach Industries ("MCI") would like to make applicable MCI coach owners aware of a campaign being conducted by Detroit Diesel Corporation ("DDC"). Our records show that you operate or own one or more of the applicable coaches covered by the attached DDC field campaign bulletin (refer to the VIN list at the end of the bulletin).

Please contact your local Detroit Dealer or MCI Representative to arrange for a programming update and replacement of the exemption label. A fully certified label will be re-installed at no charge by DDC.

Further details on the campaign is in the attached DDC Field Service Campaign D18M2 Bulletin.

Your participation in this campaign is very much appreciated.

Detroit Diesel Corporation

September, 2018

Subject: **Field Service Campaign D18M2**
GHG17 GHG17 Detroit™ DD13® Software Reprogramming and Emission Label
Replacement for Motor Coach Industries, Inc. (MCI®)

Detroit Diesel Corporation (DDC) has determined that some certified GHG17 Detroit™ DD13® engines installed in MCI® vehicles will require reprogramming. Some of these units may also need their exempt emission label replaced with a certified emission label.

Updated programming and certified emission labels became effective with GHG17 DD13® engines manufactured after August 14, 2018. GHG17 DD13® engines manufactured before August 14, 2018, will need the MCM, ACM, and CPC reprogrammed, and some will also need to have a certified emission label installed. Reprogramming and emission label replacement will correct various fault code issues that may result in customer dissatisfaction.

Note that some engines may already have been reprogrammed and certified emission label installed and will be excluded from this Field Service Campaign.

Records available to us indicate that your vehicle has one of the eligible engines. Instructions for this Field Service Campaign have been sent to your local Detroit Diesel Authorized Repair Facility and the labor time required to perform this software update is approximately 0.6 hours.

Please contact a Detroit Diesel Authorized Repair Facility to arrange to have the Field Service Campaign performed. To locate an authorized facility, search online at <https://demanddetroit.com/find-a-dealer/>

You must make an appointment with the repair facility at least two weeks in advance of the actual repair in order for the repair facility to order and receive the certified emission label to complete this Field Service Campaign. Failure to provide advance notification to the repair facility may result in a delayed repair.

This service will be completed for you at no charge, prior to September 30, 2019, under the provisions of this notice.

We are sorry to cause you this inconvenience; however, we have taken this action in the interest of your continued satisfaction with our products.
