

WH50 - Replacing Fuel Type Sticker (Workshop Campaign)

Model Line: **Cayenne (92A) MY 2018**

Subject: **Fuel type stickers**

Information: **Stickers were affixed on the inside of the filler flap and charge port door (if fitted) on the affected vehicles, but the stickers are not sticky enough.**

As a result, there is a possibility that some stickers can become detached from the grained plastic surface.

Remedial Action: Replace stickers that are affixed to the grained plastic surface on the inside of the filler flap and charge port door (if fitted).

Affected Vehicles: Only the vehicles assigned to the campaign (see also PIWIS VIN information). This campaign affects 5,455 vehicles in North America.

Model Line: **Macan (95B) MY 2018**

Subject: **Fuel type stickers**

Information: **Stickers were affixed on the inside of the filler flap and charge port door (if fitted) on the affected vehicles, but the stickers are not sticky enough.**

As a result, there is a possibility that some stickers can become detached from the grained plastic surface.

Remedial Action: Replace stickers that are affixed to the grained plastic surface on the inside of the filler flap and charge port door (if fitted).

Affected Vehicles: Only the vehicles assigned to the campaign (see also PIWIS VIN information). This campaign affects 5,455 vehicles in North America.

Model Line: **Panamera (971) MY 2018**

Subject: **Fuel type stickers**

Information:	Stickers were affixed on the inside of the filler flap and charge port door (if fitted) on the affected vehicles, but the stickers are not sticky enough. As a result, there is a possibility that some stickers can become detached from the grained plastic surface.
Remedial Action:	Replace stickers that are affixed to the grained plastic surface on the inside of the filler flap and charge port door (if fitted).
Affected Vehicles:	Only the vehicles assigned to the campaign (see also PIWIS VIN information). This campaign affects 5,455 vehicles in North America.

Parts required

Information

The stickers to be used for each vehicle depend on the following equipment variants and country codes:

- E-Hybrid
- Gasoline
- Diesel
- Auxiliary heater

Given the large number of equipment-dependent variants of the stickers, equipment-specific scopes have been defined for replacing the stickers. Each vehicle is **uniquely assigned exactly one scope for "Replacing fuel type stickers"**.

⇒ To find out which scope is assigned to the vehicle for **replacing the stickers**, see PIWIS Vehicle Information.

The **part number** of the **stickers required** for the respective vehicle is specified in the **assigned scope for "Replacing fuel type stickers"**.

Parts Info:	Please note: An initial allocation of stickers will be provided for up to 80% of the vehicles that are serviced at your dealership. After the initial allocation, parts will then remain open for normal ordering.
-------------	---

You will find a **list of the scopes for "Replacing fuel type stickers"** with a **link** to each scope under ⇒ *Technical Information 'Warranty processing'*.

Required tools

Tools:	<ul style="list-style-type: none">• Hot-air gun• Clean, lint-free cloth• Cleaning agent (e.g. isopropanol)
--------	--

Replace fuel type sticker - Cayenne (92A)

NOTICE

Effects of heat from hot-air gun

- Risk of damage to paintwork, interior and peripheral components
- ⇒ Heat sticker carefully and only for as long as absolutely necessary

Work Procedure: 1 Open the filler flap ⇒ *Overview of stickers on filler flap-2-*.

Overview of stickers on filler flap

Information

- During the campaign, only the **stickers with basic colour black and silver engraving** that are **affixed to the grained plastic surface** on the inside of the filler flap and charge port door (if fitted) must be replaced.
 - **Colored stickers and stickers affixed to the painted trim are not affected by the campaign.**
- 2 On the plastic surface ⇒ *Overview of stickers on filler flap -1-*, carefully remove affixed stickers ⇒ *Overview of stickers on filler flap -A, B, C-*. To do this, carefully heat the sticker using a hot-air gun and pull it off.
Heat the sticker repeatedly using the hot-air gun if necessary.

- 3 Clean the inside of the filler flap using a suitable cleaning agent (e.g. isopropanol) to remove adhesive residue. Then rub the filler flap dry using a clean lint-free cloth.
- 4 Affix the new sticker at the same position and with the same text alignment as the original sticker.
- 5 Close the filler flap.
- 6 Open the charge port door ⇒ *Overview of sticker on charge port door-2-* (only on e-Hybrid vehicles) and repeat steps 2-5.

Important Notice: Technical Bulletins issued by Porsche Cars North America, Inc. are intended only for use by professional automotive technicians who have attended Porsche service training courses. They are written to inform those technicians of conditions that may occur on some Porsche vehicles, or to provide information that could assist in the proper servicing of a vehicle. Porsche special tools may be necessary in order to perform certain operations identified in these bulletins. Use of tools and procedures other than those Porsche recommends in these bulletins may be detrimental to the safe operation of your vehicle, and may endanger the people working on it. Properly trained Porsche technicians have the equipment, tools, safety instructions, and know-how to do the job properly and safely. Part numbers listed in these bulletins are for reference only. The work procedures updated electronically in the Porsche PIWIS diagnostic and testing device take precedence and, in the event of a discrepancy, the work procedures in the PIWIS Tester are the ones that must be followed.
