

TPI SERVICE BULLETIN

Model:	Urus	Date:	21 September 2018
Model Year:	2019	Group:	TPI_LB636.06.18
VIN Range:	ALL	TPI Description:	Engine Oil Specification

Object: “Engine oil specification”.

Information to the field:

Automobili Lamborghini informs all the dealer network that MY19 URUS V8T engine has to be serviced with a new reduced soot content and fuel-saving properties oil, approved with the following standard and specifications:

- Viscosity SAE 0W-40
- Porsche C40
- VW 51100

Field solution:

Although the VW 51100 oil has already been released by Porsche C40, it will not be available until the end of 2018. Hence, for the time being it will be recommended to employ the ‘Mobil 1 ESP X3 0W-40’ approved by Porsche C40. Therefore, If another oil was used during oil replacement, we suggest to change it with the above mentioned during the next car service.

Please, always refer to the Workshop Manual for all the latest information.

For any further information do not hesitate to contact your Area Manager or service.department@lamborghini.com.
