Some 2016-2018 Ford and Lincoln vehicles equipped with SYNC 3 may exhibit the Android Auto Preference menu selection is not present after an update to version 3.0 software. In prior versions of SYNC 3 software this menu was present, however in version 3.0 software the Android Auto Preference menu will only show up once an Android Phone has been initially connected to SYNC. This an operating characteristic of the Android Auto application after the SYNC 3.0 update and no repairs should be attempted.
