FAZ911S Error When Adapting Module

Model(s)	Year	Eng. Code	Trans. Code	VIN Range From	VIN Range To
Atlas	2018	All	All	All	All

Technical Background

While trying to adapt the Engine/Motor Control Module **-J623-**, Instrument Cluster **-KX2-**, Keys or any other Module, error message FAZ9113S will stop the Test plan.

To prevent this from occurring, properly identify the key.

Service

- Connect the VAS Diagnostic Tool.
- Navigate to OBD.
- Select Cluster, select MVB, and then all.
- Forward arrow once and forward again to bring over the values.
- Look for "Current Transponder" (keys).

These should be in the top 5 values. The Keys should show present (6 digit code displayed).

If not:

- Remove the reader coil and rotate the key until it reads in the value block (Figure 1).

Once the key is seen by the Immobilizer, continue with the test plan.
