## Technical Background

Customer states that the passenger side rear view mirror does not auto down in reverse.

Not all vehicles are equipped with this feature.

## Service

Refer to PR codes to check if PR code **6XG** is present. If 6XG is not present, the vehicle does not have the auto down feature and is operating normally.

Even with memory function, the vehicle may not have the auto down function. If 6XG is present and the feature does not work, refer to the owner's manual for procedure to set the positions.

Vehicles with PR 6XR do not have the function of moving mirror when reverse. This PR means electric mirror adjustment without this function. --
