Subject: VAS294011KIT Carbon Cleaning Unit Promotion

Date: Oct. 11, 2018

Save 5% on the VAS294011KIT Carbon Cleaning Unit! For a Limited Time.

By popular demand, the Volkswagen Service Tools and Equipment Program is proud to announce the recent release of the VAS294011KIT Carbon Cleaning Unit "Carbon Blaster".

The VAS294011 is very effective for removing carbon build-up from all group engines and is essential for cleaning carbon build up from intake and exhaust valves to address various customer concerns.

In an effort to bolster Service Readiness, the Volkswagen Service Tools & Equipment program is currently offering a promotion on the VAS294011KIT, saving you 5% off the normal purchase price of the VAS 294011KIT.

We encourage you to take advantage of this limited time offer.
Be sure to login at tools.vw.com to view dealer pricing and to place your order.

NOTE: Blasting Media VAS294001/8 is not available in this market. Approved alternatives are available through [Grainger](#) and [Harbor Freight](#). Please visit their sites through the links provided for specs and details.
