

GPOP - Issue Review System

Part Number: 68188992A\$, 68210641A\$

Part Description: Radiator

Issue Description: Issue 1 - Several Cooling modules have been found with the radiator and engine cooling system clogged or restricted with some kind of sediment. Corporate Engineering needs more samples of this condition to determine the root cause of the sediment. If you determine you have a clogged or restricted engine cooling system, please call Keith Kerby on his cell (248) 420-5540 prior to flushing the system. ~
Mexican Dealers please call Ricardo Lozada at cell 52 1551 370 3187. If no response in 15 minutes, continue with repair.~

Issue 2 - If replacing a radiator for a leaking end tank, make sure to replace the thermostat / housing also with part number 68136754AA.~

~
