SERVICE INFORMATION

For the applied vehicles, the replacement antenna base and antenna mast styles have changed to a new style, shown in Figure 1. The old style has been discontinued.

If for any reason the old style antenna base needs to be replaced, both the base and the mast must be replaced as a set with the new style shown in Figure 1.

If the vehicle still has the old style antenna base, as shown in Figure 2, and only the mast is damaged, a replacement antenna mast can be ordered.

Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely.
