Western Star Parts Technical Bulletin

Description of Revisions: *This bulletin replaces the version dated May 2007. The procedure to obtain a GVWR certification label when the label had been lost or damaged has been updated.*

General Information

Western Star supplies gross vehicle weight rating (GVWR) certification labels when a vehicle is built, in accordance with 49 CFR 567.4 or 567.5. If a GVWR certification label is lost or damaged, Western Star will supply a duplicate label. GVWR certification labels for modified vehicles are not provided by Western Star.

If modifications have been made to a vehicle in the aftermarket that change the gross vehicle weight rating, it is the responsibility of the party doing the modifications to certify the vehicle to its new rating with an altered or final stage certification label in accordance with 49 CFR 568.4 through 568.8.

Obtaining a GVWR Certification Label When a Label Has Been Lost or Damaged

Use the following steps to obtain a duplicate vehicle weight rating certification label for an unmodified vehicle.

1. Log on to www.DTNACconnect.com.
2. Under the heading "DTNACconnect Resources," select the "Tools and Services" plus sign.
3. Select "Request for Certification Label or OWI."
4. Fill out the form, then select "REVIEW."

NOTE: The following information **MUST** be noted in the "Additional Information for Certification Label Request" field prior to submitting:

- Vehicle Make, i.e., FTL, STL, WST, FCC.
- Requestor's FedEx account number if requesting to be sent FedEx. If the account number is not entered, the label will be sent by ground.

Obtaining a GVWR Certification Label When the GVWR Has Been Changed

Western Star does not provide GVWR certification labels for modified vehicles.

For assistance in obtaining a GVWR certification label for a vehicle that has had the GVWR changed or modified, contact the National Truck Equipment Association (NTEA) in the U.S. In Canada, contact the Canadian Transportation Equipment Association (CTEA). See [Table 1](#).

Country	Association	Phone	E-mail
USA	National Truck Equipment Association (NTEA)	800-441-6832	info@ntea.com
Canada	Canadian Transportation Equipment Association (CTEA)	226-620-0779	sleveille@ctea.ca
