Attention: Vehicle Owner:

Subject: **Field Service Campaign D18M3**
Heavy Duty Engine Platform Oil Suction Manifold

Detroit Diesel Corporation (DDC) has determined that some certified Model Year 2014 Heavy Duty Engine Platform engines will require the replacement of the oil suction manifold. Replacement of the oil suction manifold may prevent failure of the oil suction manifold, low oil pressure fault codes, and engine damage as well as preventing customer dissatisfaction.

Records available to us indicate that your vehicle has one of the eligible engines. Instructions for this Field Action have been sent to your local Detroit Diesel Authorized Repair Facility and the labor time required to perform this repair is approximately **2.3** hours.

Please contact a Detroit Diesel Authorized Repair Facility to arrange to have the Field Action performed. To locate an authorized facility, search online at www.detroitdiesel.com/locations/default.aspx.

This service will be completed for you at no charge, prior to **July 20, 2019**, under the provisions of this notice.

We are sorry to cause you this inconvenience; however, we have taken this action in the interest of your continued satisfaction with our products.
