File	Description
A.jpg	Center Cap Peeling and Corroded
B.jpg	Center Cap Fading and Peeling

Cause:

Accelerated aging of the center caps may be caused by long-term or continuous exposure to one or more of the following conditions;

-High temperatures

-High humidity

-Snowy/salted roads

-Dirt or gravel roads

-Unapproved, aggressive cleaning chemicals from car washes

-Abrasive washing techniques

Remedy:

If you would like to replace the center caps, this can not be claimed under warranty as the damage is due to natural causes and not manufacturer's defect.

Symptoms

Chassis/suspension / Wheels/tires / Rim / Corrosion
Chassis/suspension / Wheels/tires / Rim / Rim damage
