WATCH #544
November, 2018
Page 1 of 2

SUBJECT: 3000 Series Standard Torque Converter Housing

MODELS AFFECTED: 3000 Series Product Family Transmissions

Introduction:

Allison Transmission, Inc. is pleased to announce a continuous product improvement of the 3000 Series Standard Torque Converter Housing. The new 3000 Series Standard Torque Converter Housing will replace the current 3000 Series Standard Torque Converter Housing on all 3000 Series Product Families.

This WATCH is organized as follows:

- Standard Torque Converter Housing Hardware
- Timing
- Additional Information

Standard Torque Converter Housing Hardware:

The new Torque Converter Housing will include a new socket recess for easy and improved assembly access. The new design will be implemented in all 3000 Series Product Family which are equipped with standard torque converter housing. The new 3000 Series Standard Torque Converter Housing possesses the same structural integrity as the current housing.

There will be no impact on existing or new units. The new Torque Converter Housings will be backward compatible and the current Torque Converter Housing is forward compatible.

NOTE: The E-numbers, part numbers, and ordering will remain the same for the new torque converter housing.
