REVISION NOTICE

November 30, 2018 Rev2:

- Applicability has been updated to include 2019 model year UX200 and UX250h vehicles.

June 20, 2018 Rev1:

- Applicability has been updated to include 2019 model year Lexus vehicles.

Any previous printed versions of this bulletin should be discarded.

Introduction

2018 – 2019 model year Lexus vehicles are equipped with factory-installed XM Satellite Radio, including a 90-day free customer trial. As part of the Pre-Delivery Service (PDS) process, ensure that the XM Satellite Radio is activated and ready for use.

XM Activation Confirmation During PDS

Confirmation Procedure

1. With the vehicle in clear line of sight to the sky, power ON the radio.

NOTE

The vehicle does NOT have to be running, but the radio MUST be powered ON.

2. Press the AMSAT button to switch the band to SAT1.
3. Are XM channels 7, 9, 152, and 175 displayed and audible?
 - **YES** — The audio portion of the XM system is already activated. (This should be the case for most vehicles.) You are finished.
 - **NO** — Continue to the Activation Procedure.

Activation Procedure

1. Ensure the vehicle has a clear line of sight to the sky.
2. Press the AMSAT button to switch the band to SAT1 and turn to channel 0 (zero).
3. Write down the 8-digit radio ID.

NOTE

Check the radio ID code carefully. The letters I, O, S, or F are NOT used in the radio ID.

4. Log on to <https://www.siriusxm.com/refresh> and follow the activation instructions, OR call 1-800-TLC-XM (1-800-852-9696) and follow the voice activated prompts for dealer demo activation.

The XM activation signal is sent to the vehicle immediately and will continue to be sent for up to 2 hours. The radio may need to remain ON for up to 30 minutes to receive the XM activation signal.

5. After 30 minutes, return to the Confirmation Procedure to ensure activation is complete and repeat steps 1 – 4 of the Activation Procedure, if necessary.
