### Fuel Line Rattle Noise

Model(s)	Year	Eng. Code	Trans. Code	VIN Range From	VIN Range To
Atlas	2018	All	All	All	All

## Technical Background

The noise may be described as coming from the right rear of the passenger compartment or under the vehicle. This may be most prominent in 1<sup>st</sup> or 2<sup>nd</sup> gear, near 1800 RPMs.

## Service

Seat the fuel lines fully into the retaining clips and where necessary, insulate the frame rail to prevent the fuel lines from rattling.
